### ***Interview Script:***

- 1: Can you tell us what the Viveres Gaby entrepreneurship is about?
- 2: Who would be the user of the software and how would they employ it?
- 3: What specific features do you expect to have in the software?
- 4: What are the key sales processes that the store performs?
- 5: How do you currently handle invoice generation in your store?
- 6: What challenges are you currently facing in inventory control and stock management?
- 7: How do you manage discounts and promotions during different seasons or special events?
- 8: What aspects do you value the most when selecting software for your business?
